

SUSTAINABILITY POLICY

The management of **Circuits de Catalunya, S.L.**, a company dedicated to the organisation of sports events and the rental of its facilities, publicly declares its firm commitment to sustainability in the global strategy of its activities and in the organisation of competitions, which have worldwide impact, with the aim of providing environmental, sociocultural and economic value to its surroundings, as a legacy based on its Statement of Purposes and Values, by adopting the principles of the World Charter for Responsible Tourism through the Biosphere Commitment label, in line with the SDGs (Sustainable Development Goals of the 2030 Agenda).

We are committed to sustainable development, seeking the satisfaction of internal and external customers, and in general of all stakeholders, with ethics and preserving the environment in accordance with COP21, prioritising efficiency and the progressive reduction of impacts, based on the best available and economically viable technology, and achieving a general and specific continuous improvement in ISO 20121 certified competitions, considering their management cycle from conception to post-event.

Circuits de Catalunya, S.L. undertakes to comply with the regulations, as well as with other requirements applicable to the sector and those which are specific to the organisation of the supply chain of certified competitions, to exceed the demands whenever possible and to promote responsible tourism.

The following principles of action have been defined within the framework of the ISO 14001 and ISO 20121 Environmental Management System:

- ❖ To promote a sustainable mobility encouraging the use of public transport, electric vehicles and the bicycle.
- ❖ To promote biodiversity, by means of a sustainable forest management of our own forest.
- ❖ To manage the external impact of noise according to the conditions of environmental authorization.

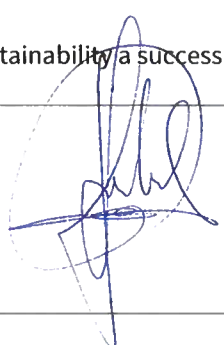

And to continuously work on:

- ❖ Promoting a responsible consumption of resources and of the renewable energy sources, looking for synergies with providers and service companies.
- ❖ Encouraging Zero Waste and promoting circular economy by means of the valuation of the generated waste.
- ❖ Boosting communication and staff training in order to promote responsible behaviour.
- ❖ Promoting awareness raising actions with stakeholders, especially along the supply chain and spectators at certified competitions, in order to jointly add sustainability values.

This Sustainability Policy and the achievement of the established goals herein will be reviewed periodically.

We ask for your collaboration to make our commitment to sustainability a success.

Josep Lluís Santamaría
General Manager
December 2022
